## MODALITIES

PSYCHIC MEDIUM

## ABOUT

- Jonathan Mark (Jonathan Filiberto) is not what you'd expect from a psychic medium — and that's exactly how he likes it. A former collegiate lacrosse player who was recruited by military programs and later went through the NYPD process, Jonathan spent years hiding his abilities while living a double life between sports, nightlife, and mediumship. Even his wife didn't know he was a psychic when they first started dating.
- Jonathan says he first experienced his abilities at four years old after relaying deeply personal details about his late aunt that no one believed he could know. Though he tried to ignore the gift for years, the experiences only intensified. Eventually, while balancing college athletics and corporate work, he began privately developing his mediumship — through friends and family, then through law enforcement referrals.
- Today, Jonathan is known for his work on high-profile true crime and missing persons cases. He has assisted on investigations connected to the Gabby Petito case and the Long Island Serial Killer case, working alongside both local law enforcement and the FBI. He describes himself as a "homicide psychic medium," specializing in helping connect dots on unsolved cases and delivering messages families desperately need.
- At the same time, Jonathan has built a massive celebrity clientele, reading for names across Hollywood, reality TV, and podcast culture. But despite the fame and attention, he says he's become more focused on true crime work than celebrity readings, believing that helping families and investigations gives his abilities greater purpose.
- He trains in Brazilian Jiu Jitsu, still carries the mentality of an athlete, and openly says he thrives under pressure. He sees Battle of Fates as another arena — a chance to push himself, compete, and prove what he can do in a completely different environment.
